Dear Ms Ryan

Our website <http://www.facs.gov.au/internet/facsinternet.nsf/aboutfacs/international/agrmnts.htm> is updated to reflect current agreements and those under negotiation.

You will appreciate that due to the legislative processes both here and overseas, once negotiations are finalised on an Agreement it may be some time before it is actually signed and implemented. But at least by checking this web site you will be able to monitor our progress from when negotiations start.

Alternatively you are welcome to email us at any time to get an update - indeed we have people in other countries who email us annually to check progress on particular agreements.

Marion Carrick
